References and Name Index

Forthcoming and unpublished articles and books have been assigned the years “(forthcoming)” and “(unpublished)”. The page numbers where a reference is mentioned in the text are listed after the reference. The date of first publication, which may differ from the date of the printing cited, follows the author’s name. Some publications (e.g., *The Wall Street Journal*) cited in footnotes in the main text but are not the in the bibliography. In the case of newspapers, I provide page numbers, but the exact page may differ among regional and time-of-day editions.
