

Dec. 18, 2021

This is from a possible amicus brief for *Netchoice v. Paxton*.

```
message1 = {'sender': 'AnonymousGuy', 'recipient': 'Big Al', 'text': 'I would like
to murder someone. I'll pay cash. How long will it take? I hope it doesn't take
a really long time. How about a month?'}
```

```
message2 = {'sender': 'Lucy', 'recipient': 'Mary', 'text': 'Hi, Mary. How are you?
Did you manage to pay for the flowers? I wish I could be there.'}
```

```
message3 = {'sender': 'Donald Trump', 'recipient': 'Joe Smith', 'text': 'Make
America Great Again! The Republican Party needs you.'}
```

```
message = message3
```

```
Length = len(message['text'])
```

```
if Length > 40:
```

```
    Priority = 13
```

```
else:
```

```
    Priority = 23
```

```
print('This message was sent by ', message['sender'], 'to ', message['recipient'],
'It says, ', message['text'], '\n')
```

```
print('The priority of this message is ', Priority)
```

```
Words = ['murder', 'pay', 'hit', 'cash', '$20-dollar bills', 'FBI', 'Make America
Great Again' ]
```

```
Senders = ['Big Al', 'Hitman Harold', 'Trump', 'Boss Pedro' ]
```

```
Features = ['crimehistory', 'age', 'most_wanted_list', 'anonymous_sender',
'party']
```
